

## **Your motherland needs you!**

HE the President on 19 May 2009 in his address to the parliament said:

*"... As we have been victorious in the battle to defeat terrorism, we should also take to the required successful end the struggle to build our land. It is necessary for us to take the required clear decisions for this. We must now be ready to direct our motherland to that new era of national revival.*

*I must specially mention here that this great battle for national revival will be waged with the aim of raising the lives of the Tamil people who live in the North an East of our land, too.*

*In the past several decades those people did not have the right to a meaningful life. They were denied the right to life, the right to freedom, the right to development. I shall give all of that to those people. I accept that responsibility"...*

Dear Doctors, Engineers, Scientists and other eminent professionals of Sri Lankan origin, your motherland needs your experience, capabilities, professionalism and expertise in its national revival.
